

Donate to Global Peace Hut

Global Peace Hut's strength and unique ability to support initiatives in different African countries (expanding to other countries around the world in subsequent years) is related to the connections we build between 'huts'. While each country takes its own approach to the work of 'living peace', they are able to receive direct assistance in the way of materials, curricula and mentoring from other huts, as well as financial support in the initial start up years from the Canadian Global Peace Hut. We thank you for your support.

Please fill out and mail with your donation and/or contact information to Global Peace Hut's address below
